

Our mission is to present the most powerful and influential media platforms for our clients.

AM 1660 K-RADIO is the most influential broadcaster established for the Korean community in the East Coast. Based in New York City, home to one of the largest population of Koreans and Korean-Americans in the US, the station serves 250,000 Koreans in the East Coast and beyond. As these communities took root, Korean radio broadcasts rose in popularity as a way for Korean immigrants to share information, language, hope and the future.

Initially a two hour Korean language program within the frequency, the station has since established itself as a major broadcaster of Korean-American programming in the eastern United States. In 2004, AM 1660 became a dedicated Korean language station and in 2015 K-Radio began broadcasting Korean language programming throughout the East Coast 24 hours a day, seven days a week. AM 1660 K-RADIO programs and live video shows now broadcast across the world via Internet-based social media platforms and smartphone applications, while new contents and programs are constantly being developed in response to the needs of Korean communities in the US and abroad.

AM 1660 K RADIO is dedicated to building audience consensus and bringing the Korean American community together. We have previously sponsored events such as golf tournaments, walk-athons, karaoke competitions, fall foliage trips, charity events and disaster relief funds, among other things. These activities provide not only an opportunity for the Korean community to come together and assist others but also an opportunity for businesses to present their brands to potential customers and clients.

AM1660 K-Radio has long been a supporter of civil rights movements and natural disaster relief efforts. Politicians and corporate leaders have used AM1660 K-radio to reach out to the Korean-American communities in the tri-state area with their messages to advocate for their causes. AM1660 K-RADIO has maintained a mutually beneficial connection with state and federal government leaders, and serves as a link between state and federal officials with the Korean American community.

For many years, AM 1660 K-Radio has been the pioneer in introducing Hallyu Wave (Korean culture) to mainstream American culture and the Korean immigrant society and has invited Korean actors, singers, traditional and classical musicians, and comedians to perform, as well as hosting events in the United States for Korean traditional performances, musicals, and concerts. AM 1660 K-Radio believes that music is a universal language that can bring people from all walks of life together, especially in a multicultural city like New York City, where ethnic and racial diversity coexists, AM 1660 K-Radio intends to expand its coverage of Korean culture in the future, including Korean cuisine and Hangul (Korean language).
